Authors who have significant scientific information in terms of quantity and quality (presented at the conference) and have a draft article focused on water resources can choose to send for pre-evaluation their material to Andrei-Emil Briciu (andreibriciu@atlas.usv.ro), guest editor at the Sustainability Journal, in order to appreciate the possibility of including in the volume "Water Resource Management and Sustainable Environment Development" (https://www.mdpi.com/journal/sustainability/special_issues/WRM_SED). A maximum of 3 papers presented at the conference can be selected as such, and the selected authors must then send their own material for evaluation by peer review to Sustainability Journal - if the article is accepted for publication, the publication fee in 2022 is CHF 2000. Pre-evaluation deadline: October 1, 2022. Materials that do not fit the theme of the special volume of Sustainability are redirected to the conference volume of Georeview Journal.
